Mr. John Chesnutt  
US Environmental Protection Agency  
75 Hawthorne St.  
San Francisco, CA 94105

Dear Mr. Chesnutt:

SUBJECT: RESPONSES TO RECOMMENDATIONS FOR PHASE 2 INVESTIGATIONS  
FORMER HUNTERS POINT NAVAL SHIPYARD, SAN FRANCISCO, CA  
FEBRUARY 27, 2017

Thank you for your letter dated February 27, 2017. The Navy appreciates the regular communications and input your agency has brought to the review of radiological work performed by Tetra Tech EC at the former Hunters Point Naval Shipyard.

Your letter lists a number of items that EPA believes may need additional soil sampling or investigations to ensure that work performed has been completed appropriately. With the exception of 3.3, the Tiger Team has discussed all of these items in the past and the Navy is in general agreement with them. The Navy believes that item 3.3 will need additional discussion, as our sampling efforts and purpose need to be clear prior to sample collection.

Thank you again for your correspondence. If you have any questions or wish to discuss further, please feel free to contact me directly at (619) 524-6026 or [derek.j.robinson1@navy.mil](mailto:derek.j.robinson1@navy.mil).

Sincerely,

A handwritten signature in blue ink, appearing to read "Derek Robinson", is positioned above the printed name.

DEREK ROBINSON  
BRAC Environmental Coordinator  
By Direction of the Director
